safe-cation

# safe-cation

Where can we go to live, break free?  
The country, coast, hill or sea?

A cocoon from which we can all emerge  
To find new life, far from this scourge

A place away, we can call our own,  
Our bubble, our safe, our protected zone

Where we discover adventures galore  
And together learn to live once more

Our home from home, our precious space  
A self-contained and private place

We now control our destination  
On our perfect safe-cation

# SMART CONSTRUCTION

**SMART is the basis of our intelligent construction system used across our entire motorhome range. Strong, Modern, Aerodynamic, Resilient and Tested, you can be assured your Swift motorhome is a high quality, engineered product.**

## STRONG

The Strong timberless body frame uses 'PURE', a tough, hard polyurethane based product that is totally impervious to water and has been proven through use.

## MODERN

The SMART construction system uses Modern materials and has been developed to ensure the exterior profiles maintain the Modern desirable looks our motorhomes are renowned for.

## AERODYNAMIC

We continue to lead the way in Aerodynamics using Computational Fluid Dynamics to help shape the bodyshell for better fuel consumption.

## RESILIENT

All fixings are made into the 'PURE' material to a pre-defined depth. 'PURE' is totally impervious to water and has no veins. This means there is no passage for water from the outer skin, making the motorhome highly Resilient to moisture.

## TESTED

Extensive safety and durability Testing at the Millbrook track, and cold chamber Testing down to minus 15°C and beyond, puts prototypes through conditions most products will never have to experience in a lifetime; all part of the Swift ethos to deliver the best products.

## HAIL RESISTANT GRP ROOF

Woven GRP outer surface provides greater durability from the elements.

## GRP SIDEWALLS

Balanced panel side walls with GRP outer and inner skins. GRP is more impact resistant than aluminium and can be easily repaired, ensuring long lasting good looks and helping protect your investment for the future.

'SMART' GRP sidewall during the production process.

## FLOOR CONSTRUCTION

'Sandwich' floor construction with ply upper, high rigidity Styrofoam core and GRP outer skin to provide greater durability from the elements.

## SEATING - SWIFTSHIELD

## WHAT IS SWIFTSHIELD?

SwiftShield fabric has a soft suede type feel and has been treated during manufacturing to resist stains. It is very easy to clean and just requires a soft cloth dampened with water to remove most stains. SwiftShield is exclusive to Swift Group, you can find out more on Swift TV.

## GENERAL TECHNICAL NOTES

1. The Maximum User Payload includes:

- a) The conventional load (this is the allowance for passengers)
- b) Essential habitation equipment (items and fluids required for safe and proper functioning of habitation equipment)
- c) Optional equipment (items available from the manufacturer over and above the standard specification)
- d) Personal effects (those items not covered by the above)

2. The Mass in Running Order is the mass of the unladen vehicle including a 75kg allowance for the driver plus engine coolants and 90% of the fuel tank capacity and 1 x 6kg Calor Lite LPG cylinder. The MRO is calculated with the fresh water tank empty. If you travel with water in the fresh water tank then the payload will reduce accordingly.

3. Please take care to ensure that you have allowed for the masses of all items you intend to carry in the motorhome, e.g. passengers, optional equipment, essential habitation equipment and personal effects, such as clothing, food, pets, bicycles, sailboards, sports equipment etc.

4. Warning - under no circumstances should the maximum technical permissible laden mass of this motorhome be exceeded.

\* Available from February 2021

From the first drawing right through to the moment you take the keys, each Swift leisure vehicle is built with love.

Every stage of the manufacturing process is completed with the greatest care and attention to detail, with the knowledge, experience and heart of generations of craftsmanship showing in all components. This, coupled with state-of-the-art technologies, allows Swift to deliver the highest standards of construction.

We undertake one of the most extensive research and testing programmes in the industry, and deploy innovations designed to help make your holidays comfortable and hassle-free. From our revolutionary SMART and SMART 3 technology to hardwearing interiors, Swift leisure vehicles are built to last.
